

# Instrumentation & Controls Training and Certification Course

This course was designed to be interactive and hands-on, providing an enhanced understanding of flow measurement, level control and analytical fluid process equipment. Attendees will gain knowledge from working with principles of different instrumentation products, along with suitable selection and how to apply in challenging applications. They will also learn about installation techniques, calibration procedures, troubleshooting and overall systems maintenance.

**PLEASE NOTE:** Enrollment is on a first-come, first-served basis, so please return your application as soon as possible. Due to limited classroom space and the popularity of certain subjects, we often reach capacity. We appreciate you taking time to notify us if you cannot attend a course for which you have registered. This makes a big difference to someone else who requires the training. THANK YOU!

**Checks:** Should be made payable to "Burt Process Equipment"

**Credits:** Participants must attend ALL hours of training to be eligible for Training Contact Hours. TCHs are awarded upon completion of a course. The certificates are mailed to participants.
